

Geography: Rainforests

We will take a closer look at the mysteries of tropical rainforests. From the layers of the forest and its animal inhabitants, to the unique climate found in the tropics. We will compare a British forest with the Amazon rainforest, and begin to explore some of the conversation issues surrounding the destruction of rainforest habitats.

Literacy

Fables
Playscripts
Poetry
GPS

French

This half term the children will improve their conversational French.

Spring I Overview 2018

The Wonderful Wolves

Why do lions roar?

half term

DT
History
RE

Maths

Number and place value
Addition and subtraction
Measurement (money)
Properties of shapes
Multiplication and division
Fractions

Science (Biology) : Living things and their habitats

This half term we are going to explore a variety of ways to identify, sort, group and classify living things. We will learn how animals are split into 'vertebrates' and 'invertebrates' and begin to consider the differences between living things within these classifications. The children will use and create classification keys to group, identify and name living things from the local habitat and beyond.
