

Geography

We are continuing our learning about the Mayan Civilisation: looking at the discovery of cocoa; at the farming methods of 'slash and burn' and the Geography of Mexico and Central America.

Computing

We will be focusing on coding using Scratch and developing games.

French

We shall focus on French food and the delicious and wonderful treats French people enjoy.

Science

We are still looking at 'Human and Plant Evolution'. We will be looking at evidence of changes over time such as scientific discoveries, fossils and improvement in technology such as DNA. We will also look at the theory of evolution.

Discreet

In PE will be looking at Basketball and Running skills.

In RE, we will focus on the Easter Story looking in detail at the crucifixion and Jesus rising from the dead.

English

In English, we shall be linking our writing to our geography topic and a rainforest/jungle setting. We shall also be writing instructional texts around a chocolate recipe. We shall have a week of grammar revision also.

Excellent Eagles

SPRING 2

Is chocolate really the food of the gods?

Maths

Our focus will be:

Number and calculation including times tables.

Measurement including measuring in cm/m, miles/km and converting between these. We will also be calculating area and perimeter of shapes.

We will also look at various aspects of fractions

It is important that children practice their times tables every day.

*Subjects not covered this half term:
History Music Art*

DT

We shall be researching, designing and investigating the world of chocolate!
